# New Book “The Unshaken Self” Brings the Bhagavad Gita’s 18 Chapters to Modern Professionals as a Practical Anxiety Toolkit

*Author KETUL SHAH translates ancient Vedic wisdom into everyday practices for stress, burnout, and decision-making under pressure.*

---

KETUL SHAH today announced the upcoming release of **The Unshaken Self: Key Lessons from the Gita for a Life Without Doubt, Worry, and Fear**, a new book that translates the Bhagavad Gita’s eighteen chapters into a practical mental toolkit for modern professionals, students, and anyone navigating stress, burnout, or uncertainty. The book is planned for release on the eve of Krishna Janmashtami, September 4, 2026, and will be available in hardcover, paperback, Kindle, and audiobook formats.

Drawing on the story of the warrior Arjuna, who is paralyzed by doubt and grief before receiving the Gita’s 700 verses of guidance from Krishna, the book reframes confusion and overwhelm not as failure, but as the starting point of growth. Each chapter pairs a core teaching from the Gita with a practical, usable exercise — such as the Three-Breath Pause practice introduced in Chapter 1 — so readers can apply the wisdom immediately rather than treat it as abstract philosophy.

## About the Author

KETUL SHAH bridges the high-stakes reality of the modern corporate world with the depths of ancient spiritual wisdom. For the past twenty years, he has built a successful career in the Information Technology industry, while spending years studying the Bhagavad Gita and Vedic psychology as a living manual for the human mind rather than a purely historical or religious text. Beyond his spiritual studies, Ketul is a dedicated musician who plays more than twelve instruments and an award-winning culinary innovator, recognized with the “Hyper Budding Chef” and “Creative Chef” awards.
